Your submission

The specific provisions of the Proposed Natural Resources Plan that this submission relates to are:

The specific provision of the Proposed Natural Resources Plan that my submission relates to is (please specify the provision/ section number): Rule R36 Agrichemicals (g) (ii) & (iii)	My submission on this provision is: →	<input type="checkbox"/> I support the provision <input type="checkbox"/> I oppose the provision <input checked="" type="checkbox"/> I wish to have the specific provision amended
	Reasons for my submission: →	On large properties, aerial or ground applications may be in a specific area with no possibility of the agrichemical application affecting adjoining or adjacent properties, some of which may be kilometres distant. To require notification in these instances is an unnecessary constraint.
	I seek the following decision from WRC (give precise details): →	That the plan retains the provision for a distance-based notification as in the existing Regional Air Quality Management Plan i.e. "Written notice (either direct notification to individual properties or public notification) is given to all adjacent properties, and places of common public assembly (e.g., schools, kindergartens, offices, etc.) located within 300 metres of the area to be

		sprayed or dusted with agrichemical powder.
